

NEW PRODUCTS

since: April 2008

Biocides:

[MIRECIDE KW/3000; MIRECIDE MIT/36; MIRECIDE RB/1](#)

Coating Additives:

[In preparation to the European Coatings Show the whole range of coating additives has been rearranged](#)

Incrustation inhibitors + dispersing agents:

[The range of oligomeric phosphonic acids has been enlarged; PC 2030 \(inkrustation inhibitor with low amounts of impurities\)](#)

Corrosion inhibitors:

[POLYGON PC 1234; POLYGON PCG 1936; POLYGON PCG 1969](#)

Cosmetics – Active ingredients:

[POLYSOL NK: Preservative for natural cosmetics](#)

Additives for cooling lubricants:

[The range of additives for the cooling lubricants industry has been enlarged considerably](#)

Pigments:

[Many new pigments for coatings and plastics](#)

Specialities for cleaners and other detergents:

[POLYGON PCG 1925 as additive for easier removal of polymer](#)

Special surfactants:

[POLYGON PCG 1444; POLYGON PCG 2029](#)

Waxes:

[A range of selected waxes has been adopted into our product range](#)

Specialities for textile care:

[OPTIGONAL K-N: a new oligomeric phosphonate with enhanced sequestering properties](#)

Additives for water treatment:

[OPTIGONAL O: a new oligomeric phosphonate for reverse osmosis; POLYGON PC 2026: oxygen scavenger](#)
