

Products of POLYGON CHEMICAL LTD.

Waxes **new**

The product list is not complete. The statements made do not dispense the reader from verifying them.

Product names	Ionogenity	Aspect	pH (approx., undiluted)	Solids content (approx.)	Adsorption at 650 nm
Polyethylene copolymer					
Wachs 52	nonionic	homogenous translucent emulsion	10.5	25%	1.7 maximum
Oxidised polyethylene homopolymer					
Wachs 29	nonionic	translucent emulsion	8.2	33%	1.8 maximum
Wachs 37	nonionic	off-white emulsion	9.2	35%	1.8 maximum
Wachs C37	cationic	homogenous translucent emulsion	4	27%	---
Wachs 60/40	nonionic	off-white emulsion	8	39%	1.8 maximum
Wachs C60	cationic	homogenous translucent emulsion	5	27%	0.6 maximum
Wachs 65	nonionic	off-white emulsion	5	26%	---
Polypropylene copolymer with maleic acid					
Wachs 57P	nonionic	yellowish homogenous translucent emulsion	8.5	39%	1.8 maximum
Polypropylene copolymer with polyethylene					
Wachs 78	nonionic	yellowish homogenous translucent emulsion	8.5	39%	1.8 maximum
Montan ester					
Wachs 20	nonionic	off-white emulsion	4.5	19%	1.7 maximum
