

PRODUCTNAME	INCI	DESCRIPTION
-------------	------	-------------

Cationic products

POLYPON CET	<i>CETEARYL ALCOHOL (AND) ETHYLHEXYL STEARATE (AND) CETRIMONIUM CHLORIDE (AND) CETEARETH-20</i>	Hair Beauty Base - product as a ready-to-use conditioner blend. Excellent combability. The base is also for co-wash products, i.e. Suitable for cleaning conditioners.
--------------------	---	--

Antioxidants

OLEOPROTECT G	<i>PROPYLENE GLYCOL, LAURYL ALCOHOL DIPHOSPHONIC ACID, LAURIC ACID</i>	New and highly efficient oil-soluble antioxidant. Forms complexes with heavy metals and prevents the formation of radicals. Prevents rancidity. Good solubility in many organic agents (oils, fats, surfactants, non-polar solvents). Very good thermal stability. It increases the effectiveness of other antioxidants and has anti-corrosive properties.
